## MEMORANDA.

**Trade.**—The oversea imports during September were valued at £2,232,402, which shows an increase of £438,150, or over 24 per cent. as compared with the corresponding month of last year. The total for the nine months was £17,036,821, an increase of £2,064,381, or over 13 per cent. over the corresponding figures for 1909. The total imports are not now comparable as the information was only collected to the 14th September, since which date the records of the Interstate transfers have not been obtained. There were increases in most of the principal articles—apparel and soft goods, agricultural implements, boots and shoes, iron and steel, metal manufactures, tobacco, cigars, &c.

The oversea exports for September amounted to £2,280,250, being an increase of £333,312, or over 17 per cent., compared with the corresponding month of last year. For the nine months there was an increase in the oversea exports of £4,218,737, or 26 per cent., as compared with last year.

Principal increases during the nine months were— £

Separating merchandise from gold, the exports of the former during the nine months increased by £4,588,564, and the latter decreased by £369,827.

**Public Finances.**—The Public Accounts for September show that the net revenue for the month was £1,087,257, or £11,029 more than in September of last year. During the three months ended 30th September the revenue was £3,215,945, being £92,494, or nearly 3 per cent. more than the corresponding period of the last financial year.

On the 30th September, 1910, the Consolidated Revenue Account was in credit to the amount of £3,416.

**Gold Production.**—The gold yield during September was 21,093 oz. crude, equal to 17,899 oz. fine, valued at £76,030. The value of gold produced during the nine months was £616,303, and showed a decrease of £24,772, as compared with the corresponding period of 1909.

**Prices.**—The general index number for September was higher than in August, and also higher than for the corresponding month of last year. The index number for pastoral produce was 1,270, for metals 1,086, and for all articles 1,231. Prices during the month varied but slightly from those ruling in August; the principal articles to show an increase in value were tin, which was higher than at any time since September, 1907; copper and greasy wool, butter, scoured wool, and lead were cheaper than in the previous month.

**Meteorology.**—During the month of September the rainfall over New South Wales was generally below the average, excepting over an irregular shaped area south of the Lachlan River, in the extreme south-west and north-east corners, and on the southern highlands, where the total falls received were in excess of normal. Towards the latter end of the month a storm of some severity was experienced over the coastal district, and, as the result of its operations, light to heavy rain, with thunderstorms, was recorded over the greater portion of the State, the far west and northern border, however, being the least fortunate. The temperature generally was mild to warm and hot in parts.

**Land Selections.**—During September, 157 new settlers applied for 87,426 acres; and 46,500 acres, representing 76 blocks, were set apart for residential settlement. Since the beginning of the year the number of new settlers has been 1,476, and the area applied for 863,160 acres. The original area set apart for residential settlement since the 1st January has been 622,174 acres, representing 893 blocks.
